

# Men's Soccer Head Coaches '09

1. How long have you coached at Sycamore? If you coached somewhere prior to Sycamore, where did you coach?

I have coached at Sycamore for 6 years. I have been the JV A/Varsity Asst. coach for 6 years. Sycamore has been the only place that I have coached.

2. What are you excited about for the remainder of the season?

We are halfway done with the season right now and we have some huge games coming up (i.e. Lakota West, Lakota East, Fairfield). So I am excited about that. Also the post-season Varsity tournament is a great time as well.

3. Are you proud of the team's performance this year?

I am very proud of my team this year. Our record stands at 7-1 right now, which is very good, considering the tough schedule that we play. The players have made a huge commitment to train hard and it has shown with our record. I am very happy with the progression and development my team has made from the beginning of the year.

4. What do the prospects for the JV A soccer team look like this year?

We have some very good players in our program, especially on the JV A team. Several players have seen time at the varsity level and I hope that more are called up. The team is young this year, which means that when the players become juniors and seniors they could be a tough team to beat.
